

BACK CREEK CHRISTIAN ACADEMY

Eighteen years ago, the dream of providing a unique, classical Christian education to children in the University City/Harrisburg area became a reality. With the assistance of Back Creek Presbyterian Church, Back Creek Christian Academy opened its doors with 8 children and 1 teacher. Since that first day, the school has grown to include Transitional Kindergarten through High School with students from different races, socio-economic backgrounds, religious traditions, and developmental abilities. BCCA graduated its first senior class in 2018. We are thankful that school and community growth have not altered Back Creek Christian's unwavering commitment to developing children who gracefully display and defend the Truth of the Gospel. Building on the firm foundation they received at Back Creek Christian Academy, our graduates and former students are sharing Christ in their colleges, neighborhoods, and the world.

Our current facilities are borrowed or leased, limiting our opportunity to "put down roots" and create a school for the future. Quite simply, Back Creek Christian has run out of space at our current location. The vision for growth and our desire to reach more students has led us to a new opportunity on the campus of Eastside Church. The Eastside campus provides the capacity to create a unique academy campus, with all grades located in one learning village. Not only will we own the school buildings (allowing us to modify to meet our learning needs), but our classrooms will be larger and dedicated to the specific educational offerings of the school. More excitingly, we will also have room to expand for the future! Phase one will establish this new facility, solely dedicated to educating children; equipping them for life with a classical Christian education.

The second phase of this journey will see the construction of a gymnasium on the new Back Creek Christian Academy at Eastside campus. This facility will be used to support athletic programs and physical education classes, as well as serve as the school cafeteria. While a significant effort, these facilities are vital to our mission of providing a high-quality educational experience to our families.

This dream is now becoming a reality. Through new partnerships, generous donations, and fervent prayers, the new campus is underway and should be completed by fall 2019. To accomplish this mission, we need you to support the "Putting Down Roots" campaign with your prayers and financial gifts. Back Creek Christian Academy is seeking the funds necessary to establish a permanent home. The need is significant and the situation urgent. This is our Call to Action: Please join us in this next, exciting chapter while we follow God in putting down roots!
